**SUSTAINABLE SOLUTIONS CORPORATION IS CERTIFIED AS A WOMEN'S BUSINESS ENTERPRISE
BY THE WOMEN'S BUSINESS ENTERPRISE NATIONAL COUNCIL**

Royersford, PA – September 1, 2009 – Sustainable Solutions Corporation is proud to announce its recent national certification as a Women's Business Enterprise by the Women's Business Enterprise National Council (WBENC), an organization chartered to enhance and promote procurement opportunities for woman-owned businesses.

WBENC, through its regional organizations, certifies businesses as woman-owned, managed and controlled, and then provides information about those companies to purchasing managers of corporate partners through an Internet database. By including women-owned businesses, corporations and government agencies demonstrate their commitment to fostering diversity and to continued development of their supplier diversity program.

Sustainable Solutions Corporation, a privately owned engineering consulting company established in 2001, is headed by Tara Radzinski, co-founder and CEO. Sustainable Solutions Corporation provides comprehensive green building and sustainable development services to corporations, developers, and homeowners. Sustainable Solutions Corporation's Services include: Green Building and Sustainability Training, Development of Sustainability Programs, Energy Efficiency Analysis and Modeling, LEED® Certification, ENERGY STAR Certification, Green Building Consulting, Integrated Green Building and Site Design, Renewable Energy Systems, Innovative Stormwater Management Systems, Rainwater Collection Systems, Gray Water Systems and Engineering Design Services.
