

SustainableSolutions
CORPORATION

Secure your Role in Today's Global Supply Chain Navigating the Sustainability Product Index

Leading companies are responding to the **Wal-Mart Sustainability Product Index** and realizing bottom line growth. Sustainability is becoming a discipline that supports a profitable business plan; much like finance, sales or IT. **Sustainable Solutions Corporation (SSC)** offers services to assist Wal-Mart and its global supply chain with Sustainability Product Index compliance. We develop and implement sustainability programs that reduce energy costs and greenhouse gas emissions, minimize waste and water use, integrate responsibly sourced raw materials into manufacturing, and ensure sustainable and ethical production practices. With a focus on practical solutions, SSC offers a wide range of corporate sustainability services and training programs. What sets us apart is our expertise in sustainability education and our thorough implementation process for:

- Life Cycle Assessment and Environmental Product Declarations
- Carbon Footprint Analysis and Benchmarking
- Sustainable Product Design and Corporate Sustainability Training
- Corporate Purchasing and Product Sustainability Guidelines and Program Development
- Sustainable Buildings and Operations Programs
- Building Performance Improvement Plans
- LEED Certification
- ENERGY STAR Certification
- Renewable Energy and Energy Efficiency Programs
- Waste Minimization
- Water Efficiency Optimization

Sustainable Solutions Corporation is a firm driven by our passion to make things better, one green "solution" at a time. For the past 10 years, our mission has been to make sustainability profitable for our clients through the process of evaluating, planning and implementing comprehensive sustainability programs. Utilizing a practical, hands-on approach, we identify areas for improvement that will provide cost savings and generate revenue while improving environmental performance. We are committed to understanding our clients' objectives and provide a progressive plan while educating you throughout the process. Our tested system empowers our clients and fosters a more sustainable business model.
